CHEN Yirun | China

As a Chinese, there are still many things I don't know about my own country so I want to systematically study the topics related to China. That's the reason I chose CCS.

My favorite aspect of CCS program was diversity. Compare to other majors, we don't learn ONE thing. We learn different aspects of China, e.g. culture, politics, language, business etc.

PARK So Hyun | Korea

Matthew DIXON | U.K.

I saw it as an opportunity to do something a bit outside the box compared to the traditional path of studying in Europe.

The programme is perfectly designed for students who are considering a career in China.
