**Our Students**

- **Farhan Syed HUSSAIN** | India
  - The programme helped me to have a comprehensive understanding of China in various aspects, and to interact with people from around the globe.

- **PARK So Hyun** | Korea
  - My favorite aspect of CCS program was diversity. Compare to other majors, we don’t learn ONE thing; we learn different aspects of China, e.g. culture, politics, language, business etc.

The programme required you to study Putonghua and helped to improve my English writing skills. It’s useful to my job!

Sam CHEN | Hong Kong
The programme is perfectly designed for students who are considering a career in China.

Our full-time teachers and teaching assistants will lead students to explore various regions, understand local cultures and engage in local communities in mainland China, Hong Kong, or Taiwan. Students well-equipped with first-hand knowledge of China can also seek opportunities to apply for internships, or get involved with research projects related to China.

Our final year students will carry out a year-long Capstone Project under the supervision of a teacher to design, research, and write an in-depth report on a self-chosen subject in Chinese studies to showcase their knowledge and analytical skills.

When I came to CUHK, my first impression was that it’s really modern. I met a lot of cool people – in the Chinese studies programme, and also in my college, and during different classes. I really like it.

Matthew DIXON | U.K.
I saw it as an opportunity to do something a bit outside the box compared to the traditional path of studying in Europe.
